

PHYSICAL EDUCATION PROGRAM

Specialist PE Program

The Physical Education program at Swanbourne Primary is inclusive and holistic, and encourages students to engage, learn, have fun and develop their social and sporting skills. The activities are differentiated in order to educate and progress students at all levels of ability.

The program educates students in particular sports from Years 1-6 bi-annually. This approach allows students to expand, challenge and develop their locomotor, ball and striking skills, elaborate their ability to work as a team and as an individual in different ways, and experience sports with alternate skills and strategies that aren't associated within the norms of typical Western Australian sports. These lessons target specific curriculum focal points to allow a comprehensive and progressive development of skills.

In-term Swimming Lessons

Students from Years 1-6 participate in swimming lessons as part of the Physical Education curriculum. Session times and dates vary from year to year, depending on the school's allocation. Lessons are in small groups to ensure children develop vital swimming and water safety skills. The Department of Education meets the cost of the lessons but parents and carers pay a fee to cover transport and entry costs into the swimming venue.
